

Technical Leaflet

KBS® Pipe Seal SN

Pipe collar for fire stopping of combustible pipes.

1. Usage

Field of application KBS® Pipe Seal SN is used for sealing plastic pipes and in our KBS® Kombischott (panel seal and mortar seal) systems and as a single pipe penetration seal in fire rated walls and floors.

Electrical installation pipe bundles (occupied or unoccupied) can be sealed off in our KBS® Kombischott (panel seal) systems.

Installation KBS® Pipe Seal SN is used as a mounting collar. Please refer to the application instructions enclosed with each packaging unit and the system descriptions of the KBS® penetration seal systems.

For sound decoupling, a 5 mm thick strip of normally flammable PE (polyethylene) foam may be placed between the pipe and the fire protection inlay of the pipe collar.

2. Product specification

Description KBS® Pipe Seal SN consists of a red painted steel casing with intumescent inlay.

The intumescent compound which has been specifically developed for the use in pipe collars intumesces in fire. By doing so it develops a high foaming pressure and thus closes the pipe preventing the passage of fire and smoke.

The intumescent material used is neither impaired by water nor by carbon dioxide.

Closure: Full-length housing with screw cap.

Product program/sizes The pipe collar is available in 9 sizes:

	Collar type	High	Inner diameter	mounting brackets
	KBS® Pipe Seal SN 50	20 mm	58 mm	3
	KBS® Pipe Seal SN 63	20 mm	71 mm	3
	KBS® Pipe Seal SN 75	20 mm	83 mm	3
	KBS® Pipe Seal SN 90	30 mm	98 mm	3
	KBS® Pipe Seal SN 110	30 mm	118 mm	3
	KBS® Pipe Seal SN 125	45 mm	133 mm	4
	KBS® Pipe Seal SN 140	45 mm	148 mm	4
	KBS® Pipe Seal SN 160	45 mm	168 mm	4
	KBS® Pipe Seal SN 200	100 mm	210 mm	6

Dimension drawing see ETA-16/0214.

Installation note The type of collar and assembly to be used in a given application must be selected on the basis of the respective approval document.

Disposal In accordance with national regulations. See also safety data sheet.

3. Scope of testing and approval

ETA	ETA-16/0214, CE-marked.
EN 1366-3	Tested and classified as pipe penetration seal up to a diameter of 200 mm and for electrical installation pipes, occupied or unoccupied.
VKF-Approval (Switzerland)	Approved as pipe penetration seal up to a diameter of 160 mm.

4. Storage

Storage conditions	Store cardboard boxes in dry environment.
Storage temperature	No limitations.

5. General instructions

Safety precautions	When installing KBS® Pipe Seal SN observe the general rules for safety at work.
Packaging	Cardboard box containing 2 pipe collars.
